

This list is proposed and subject to change. Dates of paving may fluctuate due to weather, emergencies, utility work and other circumstances out of the Township’s control. The Public Works Department will make every effort to remain on schedule as proposed. In some circumstances, a date for paving may not be provided. This is due to ongoing or expected utility work often related to PECO and Aqua, PA. At completion of the utility work, the road will be scheduled for paving promptly.
